

## IACMAG 2022 NEW CALL FOR ABSTRACT

### Still 9 days to go to the new call for abstract submission deadline

More than 200 works submitted during the first submission phase in 2020 have already been published by Springer (see more [here](#))

A new call for abstract has been launched in view of the conference postponement to 2022 and almost 100 abstracts have already been submitted.

A great success indeed, but there is still time to join the conference program.

The deadline for abstract submission expires at **October 30, 2021**.

Don't miss this occasion to be part of IACMAG2022.
